## Convenient Care

Push Health makes it easy to request medical care when you need it. Automated notifications for prescriptions and lab results put your mind at ease.

## Trusted Provider

Push Health is invite only access to a trusted medical provider. Rather than ask the internet, send Paul Kapsar, APRN a secure message.

## Clear Pricing

All fees (if any) are clearly displayed. Push Health aims for 100% price transparency. Pay with any credit / debit card or your Health Savings Account.

## Hassle-Free Lab Testing

Push Health is integrated with the largest U.S. lab company, Quest Diagnostics, to deliver seamless access to top quality lab testing at affordable prices. No mystery bills are allowed!

## Your Health Care Records

Nothing likes to be trapped in a medical clinic, including your health care records. Your prescription information, lab results, and secure messages are yours -- always.

## Secure & Simple

Push Health is HIPAA compliant and built with bank-level security and encryption. While doing that is complex, using Push Health is not. No training is required.

\*Lab testing not available in all states. Check with Paul Kapsar, APRN.
